THE EDUCATORS  
Matriculation in Science

## AWARDS

- BEST PERFORMER
- RISING STAR

## ABOUT ME

I am a frontend developer with 3+ years of experience, specializing in creating user interfaces using React, Next.js, and Vue. In my React projects, I use Redux and RTK Query for state management, which helps in efficiently managing and fetching data. For my Vue projects, I rely on Vuex and Pinia to handle state management effectively. I also work with HTML, CSS, JavaScript, and jQuery to build and enhance interfaces, and I use Bootstrap and Tailwind CSS for responsive styling. My role involves designing interfaces, making them functional, integrating APIs, and accurately displaying data. This combination of skills and tools allows me to build dynamic and responsive user experiences.

### UI/UX DEVELOPER (FRONT-END WEB DEVELOPMENT)

Experienced UI/UX Developer with a strong foundation in front-end technologies. Proficient in creating responsive, user-centric web designs and skilled in transforming high-fidelity designs into functional websites. Expertise includes:

## WORK EXPERIENCE

### SOFTWARE ENGINEER / FRONT-END DEVELOPER AT ARHAMSOFT IT SOLUTIONS (PVT) LTD, LAHORE

2022 - Present

#### 1) METAMUTO PROJECT.

- Tasked with enhancing the user interface and interactivity for a high-profile project.
- Develop and integrate responsive design elements using HTML, CSS, and advanced animations with GSAP.
- Collaborated closely with backend developers to implement CRUD operations and Redux for state management, ensuring smooth data flow and user experience.
- Successfully improved project engagement and user satisfaction, earning the "Rising Star" award for outstanding contribution.
- Link : <https://www.metamuto.com/>

#### 2) BIIVIEW PROJECT.

- Required to refine and elevate the front-end design and functionality of an innovative platform.
- Utilize HTML, CSS, and GSAP animations to create an intuitive and dynamic user interface.
- Worked in tandem with backend teams to incorporate CRUD and Redux functionalities, enhancing the application's responsiveness and efficiency.
- Project acclaim led to receiving the "Best Performer" award, highlighting exceptional teamwork and project execution.
- Link : <https://www.biiview.com/>

#### 3) MUTOPLACE PROJECT.

- Aimed at delivering a cutting-edge user experience for a new, strategic initiative.
- Design and implement a cohesive front-end architecture with HTML, CSS, and engaging animations.
- Coordinated with backend colleagues to seamlessly integrate CRUD operations and Redux, optimizing data management and interaction flow.
- My dedication to project success was recognized with the "Unmatched Dedication" award, underscoring my commitment and impact on the project's success.
